

Newsletter Friday 11 October 2019

Year 5 and Year 6 pupils have been thinking about our Catholic values this week; they have been sharing their own gifts and talents and discussing how they can inspire others. 5BCU wrote prayers to Our Lady on roses which they laid at Our Lady's feet in the Chapel as they said a decade of the Rosary. Year 6 pupils took part in a live link up with Archbishop Bernard at St Chad's Cathedral and recited the Rosary reverently.

In other areas of the curriculum, Year 5 pupils have been discussing variables in science and the continents and oceans in geography. Year 5 pupils have also worked very hard in their tests in English and maths. In maths, Year 6 pupils have been investigating the perimeter of real life objects and have challenged themselves to find the perimeter of shapes with missing lengths.

It has been a really busy, but fun week in KS3. 7HFA have shared their research on World Space week with us in their form presentation in Collective Worship. We have heard about the different planets and learned that the focus of Space week this year is Discovery and Exploration. The Junior Apprentice Project welcomed visitors from Wicks and VIY (Volunteer It Yourself) who enabled the students to build an archway, a decking area and a new bench for the forest school area. On Wednesday a group of students competed in a STEM challenge at Woodfield school. They were extremely successful and won the challenge bringing the trophy back to St. Bede's again! Students have been thinking about Mental health on Thursday by wearing Yellow, trying to raise awareness and realise "It's ok not to be ok". Today our Arts week has concluded with "Dress and a musician" and there have been some very creative costumes. Finally, we have announced the Head Boy and Head Girl for 2019-2020. The prefects and the house captains in Year 8, as well as the staff, have been voting and it was a really close contest. Congratulations to all the applicants but the pupils selected were; Olivia Edwards and Noah Barker.
