

Ditloids Challenge!

A ditloid is a type of word puzzle that just uses numbers and abbreviations to express a phrase. You have to try to work out what the initial letters stand for to figure out the puzzle!

For example: 366 D in a L Y is **366 days in a leap year**.

Try these together with the family – everyone can join in! Can you figure them all out? I've given you clues to help you for some of questions, but not all! You might find it's easiest to print this out to write your answers on.

We will publish the results at the end of the week... good luck!
