

Reuse or Recycle Creatively

My idea for this Challenge came from the need for use to think about how much recyclable rubbish we use and thinking outside the box with materials that are usually thrown away.

Now at St Bede's we take sustainability and looking after our world seriously. We all have things at home that we either don't use or are a bit tatty.

Well the challenge is to make something cool from an item that is recycled or re-used. It can be anything - let your creativity take you on a journey.

Here are some ideas to help get you thinking...

Please send a picture of your recycled creation along with a description of what it is and the materials used to Mr Bailey by Monday 25 May.
Enjoy and let your creativity run wild.
