

Maths Summer Challenge!

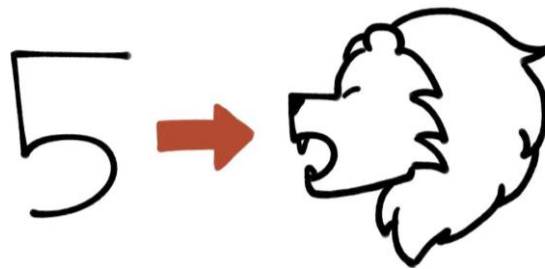

Can you create a picture from each of the numbers from 1 to 9?

Write your number nice and big in the centre of a piece of paper.

Using a different colour (so you can easily see where your original number was) draw around it to turn the number into an image.

Use this YouTube video for inspiration.

<https://www.youtube.com/watch?v=VvIqKOTvTsA>

As an extension, can you find the numbers 1 to 9 in nature?
